will be the theme for Sunday's service at new Saints' Church of the Open Air in the Drive-In Theatre on 136 street, a mile and one-half south of Jasper. Father Briner, director of Catholic Youth groups

Double Crop Reaped at Redwater

BLACK AND GOLDEN WEALTH pours out of same fields in Redwater district, 30 miles north east of Edmonton, where fertile agriculture land is farmed profitably.

ably and sub-strata yield fabulous crude oil supplies. Here drilling operations at Imperial Oil's Redwater No. 1 discovery well are background for harvest season.

Alta. Cities Seek Financial Help From Government

CALGARY, Sept. 24.—(CP)—A broad plan for financial aid to Alberta cities was drafted at a conference of delegates from seven cities yesterday and will be presented to the provincial government in the form of a brief.

Resolutions on education, social services, and hospitalization and taxation were approved by the 34 delegates.

A steering committee, headed by Dr. A. E. Aikenhead, member of the Calgary city council, was named to draw up the brief. It will be filed with the provincial cabinet before the meeting of the Union of Alberta Municipalities, scheduled for Oct. 6 here. Copies of the brief

will also be presented to members of the legislature. Members of the committee are: Commissioner R. S. Gillespie, Red Deer; Ald. D. S. Hawthorne, Edmonton; Ald. J. C. Macdonald, Medicine Hat; J. C. Macdonald, Medicine Hat; J. C. Macdonald, Medicine Hat; J. C. Macdonald, Medicine Hat.

Eight Resolutions Passed

Resolutions stemming from a meeting of the committee on taxation, headed by Mr. Hookway, were passed.

1. A request for implementation of the judge report.

2. A request that a share of money collected from automobile licenses, gas sales tax and liquor profits be given municipalities.

3. Endorsement of the provincial government's policy of reducing the province's debt, with money from the sale of oil leases.

4. A request that starting Jan. 1, 1950, half the increased revenue of oil royalties collected with Jan. 1, 1949, be made available for building schools.

5. A request that the provincial government immediately release for school building money derived

from the sale of school lands, including that held in reserve.

6. A request that the provincial government contribute half the costs of tests and services by municipalities for construction of low-rental housing by any Crown corporation.

7. Introduction of additional taxes such as amusement taxes or boat excising rates if the provincial government feels its revenues are not sufficient to implement the resolutions passed. The total additional should be divided among the municipalities on a per capita basis.

8. Mr. Hookway said the committee felt present taxes are adequate but that it is a matter of equitable distribution. The resolution presented an alternative to present distribution methods.

Municipal Loans Sought

A recommendation that the government try to set up a capital loan fund so that municipalities could get capital funds at a low rate of interest. This fund could be similar to the 1938 Municipal Improvements Assistance Act except that self-liquidating projects would be eliminated.

The education committee brought down five resolutions which delegates approved. They included one urging that grants for elementary and secondary educational purposes be exclusive of government contributions to teachers' retirement funds, be at least a low rate of the total operating costs of schools.

Delegates agreed that grants on a per pupil basis should be adjusted year by year in costs of education. They disclosed that

in no school district or division should the amount of a grant to a board be less than 25 per cent of the total operating expenditure of that board for the previous year.

The government also will be asked to set up a revolving fund from which school boards may borrow for new construction at a rate lower than 1 1/2 per cent a year.

The conference approved a resolution urging the provincial government to match the Dominion building construction grant without attaching conditions to the grant, and to the federal government.

Also approved was a request that the provincial government substantially boost the daily half-grant or make additional grants to meet rising costs of hospitalization.

Only Imperial. Announcement of the increase was only made by the Imperial Oil, however it is expected that other suppliers will follow suit.

Crude price advances range from 2 cents per barrel for Leduc, Calgary and Woodhead producing wells to 30 cents per barrel for Greater and Turner Valley crude.

Leduc area crude will now market for \$2.25 per barrel; Redwater crude for \$2.50 per barrel; Grouse Creek for \$2.50 per barrel; and \$2.44 per barrel for Turner Valley crude of \$2.50 gravity.

Crude of one degree gravity, however, is selling for \$2.50 per barrel.

Gasoline, Kerosene, Fuel Oil Prices Go Up

TORONTO, Sept. 24.—(CP)—Imperial Oil Limited today announced Dominion-wide increases in the price of gasoline, kerosene and light fuel oil effective immediately.

Price adjustments, described as due to devaluation of the Canadian dollar, include a general 15-cent increase a gallon for gasoline and kerosene, and one cent a gallon for light fuel oil.

The company announcement said that these adjustments do not take into account the effect of a railway freight-rate increase announced this week, still being studied.

Price of gasoline in Edmonton advanced seven-tenths of a cent per gallon, boosting the wholesale price to Imperial Oil dealers for No. 2 grade from 26.7 cents to 27.4 cents per gallon.

What action retail dealers will take has not yet been formulated and will probably depend on a de-

TROPICAL RAIN IN SAINT JOHN

SAINT JOHN, N.B., Sept. 24.—(AP)—It rained so hard here yesterday that schools cancelled afternoon classes so youngsters wouldn't have to wade through flooded streets.

The weather bureau said 2.11 inches of rain, an almost tropical downpour, fell during the day.

FOR ANYONE

Success Not Elusive This Way

It's another success story for Bulletin want ads.

A woman who lives "way out on 77 street and 119 avenue advertised a furnished front room and bedroom, with kitchen privileges, for rent.

She wanted her classified ad printed for four days.

But in just two days her room was rented and her worries over.

Hungary Tito Aides to Hang

BUDAPEST, Sept. 24.—(AP)—People's court today sentenced László Rák, former No. 3 Communist, and two of his seven co-defendants to die for plotting to supplant Hungary's government by a regime obedient to Yugoslav Premier Tito.

Two other defendants were sentenced to life imprisonment and another to nine years.

But the court passed no sentence on the other two defendants—Lt. Gen. George Palfy, former chief of the Hungarian Army, and Bela Kerondy, colonel of police.

The court said it was not competent to deal with them and they were held for court-martial.

Parties officials. Sentenced with Rák to die were Dr. Tibor Szosny, former member of parliament and a Communist party official, and Andras Szalai, another party official.

Lightning Kills Two. DU BOIS, Pa., Sept. 24.—(AP)—A bolt of lightning crashed into a group of children playing in a grade school yard during the noon lunch recess yesterday. Two were killed and four were stunned by the bolt.

Seal Skins Stolen. TORONTO, Sept. 24.—(CP)—Smash-and-grab thieves stole 12 skins of black and white seal at \$2,000 from the display window of an east-end fur store in the night, police reported today.

U.S. Confident of Lead In Atomic Knowledge. WASHINGTON, Sept. 24.—(AP)—The United States still holds a vast lead over Russia in the field of atomic weapons and in all probability will never lose it, top American officials said today.

"They'll never catch up with us," said one high security official in the wake of President Truman's disclosure yesterday that there has been an atomic explosion in Russia.

While it was calmly noted, the President's statement itself exploded throughout the western world with terrific impact.

It brought urgent—and hopeful—new demands from lawmakers, scientists, diplomats and others for effective international atom controls.

It caused a general withering of United States Congressional opposition to sharing American atomic secrets.

Australia, U.K. Ask Billion Loan

Decision Of Monetary Fund Top Secret

CANBERRA, Australia, Sept. 24.—(CP)—Britain and Australia are to seek a \$1,125,000,000 loan from the International Monetary Fund, it was authoritatively stated here today.

An official announcement was expected shortly but the decision was being kept "highly secret," it was stated.

The source added that "this was one of the other steps agreed to at the Washington finance talks" among the United States, Britain and Canada.

Britain's share of the loan would be \$675,000,000 to be taken at a rate of \$25,000,000 a year during the next three years, the source said.

Australia's share would be \$450,000,000 at \$15,000,000 a year for the first year, rising to a maximum of 2 1/2 per cent in the third year.

Interest TOO HIGH. Prime Minister Chifley has examined alternative methods of obtaining a dollar loan but rejected them because interest rates would be too high, according to the source.

Australia's share of the loan, if it is granted, will be used to buy urgently-needed American capital goods for which commitments have already been made, it was stated.

The loan would make no difference to the recent 15-per-cent cut in dollar imports by Australia.

Australia hopes to increase her dollar exports sufficiently to "redeem" the loan and reduce her dollar deficit, the spokesman added.

Seal Skins Stolen. TORONTO, Sept. 24.—(CP)—Smash-and-grab thieves stole 12 skins of black and white seal at \$2,000 from the display window of an east-end fur store in the night, police reported today.

U.S. Confident of Lead In Atomic Knowledge. WASHINGTON, Sept. 24.—(AP)—The United States still holds a vast lead over Russia in the field of atomic weapons and in all probability will never lose it, top American officials said today.

TRUMAN GOOD AT BREAKING BIG NEWS

WASHINGTON, Sept. 24.—(UPI)—President Truman, in 4 1/2 years in the White House, has announced to the world four of the greatest events of the century.

They were: May 8, 1945—Germany's surrender; Aug. 6, 1945—The first atomic bomb; Aug. 14, 1945—Japan's surrender ending the Second World War; Sept. 23, 1949—Russia's atomic explosion.

Truth Claimed Suit Defence. CLEVELAND, Sept. 24.—(AP)—Counsel for C. Ralph Wilson said today he would dispute the truth of Wilson's statements as a defense in the \$250,000 suit filed by Captain William Taylor, master of the cruise ship Noronic.

The charge against Guay, linked with a mystery woman who is known to have delivered to Quebec airport a package believed containing dynamite, simply accused him of "having seen" it at Saint-Augustin de Cochen killed and assassinated Mrs. Morel, your wife."

Before Guay was led from the court room to police cells, Crown Prosecutor Noel Dorion said "three search warrants have been issued and further charges are expected to be laid." He did not immediately make clear who else would be charged.

The crown prosecutor said he would be prepared to go ahead with preliminary hearing of the aircraft. Police who were at the murder charge Oct. 4.

KEY WITNESS. Key witness in the case is 40-year-old Mrs. Arthur Pirie who was placed under guard last night before police picked up Guay.

The brown-haired attractive woman admitted she was the "mystery" woman—sought for two weeks or more—who delivered the package containing dynamite to the aircraft. Police who were at the murder charge Oct. 4.

Jeweller Accused Of Killing Wife

By Richard Dalgault. QUEBEC, Sept. 24.—(CP)—A slim, young Quebec jeweller, J. Albert Guay, today was formally charged with the murder of his wife who died with 22 others when an explosion in a Canadian Pacific Airlines plane sent it crashing to destruction Sept. 9.

The charge against Guay, linked with a mystery woman who is known to have delivered to Quebec airport a package believed containing dynamite, simply accused him of "having seen" it at Saint-Augustin de Cochen killed and assassinated Mrs. Morel, your wife."

The charge made to mention of what police believe was the cause of the plane's destruction—a home-made bomb containing dynamite.

Saint-Augustin de Cochen is a small mountainous area near Quebec where the mangled bodies of 19 passengers and four crew members were found in the plane wreckage.

Before Guay was led from the court room to police cells, Crown Prosecutor Noel Dorion said "three search warrants have been issued and further charges are expected to be laid." He did not immediately make clear who else would be charged.

The crown prosecutor said he would be prepared to go ahead with preliminary hearing of the aircraft. Police who were at the murder charge Oct. 4.

It Happened TODAY

Atomic Age

Canada's No. 1 Communist, Tim Buck, thinks there's far less chance of war now than Russia has the atom bomb. But Buck: "The development will help to halt, at least retard, preparation for war."

TIM BUCK
... War scare fades

If Russia hasn't got the atom bomb, they're just plain dumb says Chairman John Wood of U.S. Congress on-American activities committee. Advocating a new crackdown on Communist spies in the States, Wood says committee will soon release report proving Russians had every opportunity to find out all about American nuclear energy designs.

Official Soviet news agency Tass reports Britain has been peevish at the U.S. over atomic energy development. Tass says British scientists have ever stopped pooling information with U.S. on atomic work and have threatened to demand 50 percent of uranium output from Belgium Congo. Claim is that U.S. wants lion's share of all uranium mined in Congo.

U.S. Affairs

Whatever the late James V. Forrestal, former U.S. navy secretary, thought of B-36 bombing planes will likely remain a secret for some time. The White House has all private and key will not make back and key will not make them public. Congress has been screaming for the documents from current probe of navy-army squabble over the B-36.

The Nation

Premier Maurice Duplessis of Quebec thinks only the original four provinces of Quebec, Ontario, New Brunswick and Nova Scotia should pass on proposed amendments to the Canadian constitution. Maurice has gallantly informed Prime Minister St. Laurent that Quebec is favorable

to participating in another inter-provincial conference.

Kamloops has been demanding a federal government testing laboratory for Bang's disease in cattle. Agriculture Minister Gardiner has told the Commons why. Station now at Kamloops makes tests for Bang's disease. It would be dangerous to have cattle traveling in and out of Kamloops while there might be bubonic infected animals around.

Devaluation

Finance Minister Abbott hopes Canadian exporters won't slash prices on export too heavily as a result of devaluation. He said Canadian prices for exported products are already comparatively low and if further cuts are made Canada will not get the foreign exchange she needs so badly.

Alberta Oil

Alberta oil and eastern iron ore will eventually save Canada's dollar shortage, according to the man who should know most about such matters, U.S. Secretary of Commerce Charles Sawyer. He told a Victoria board of trade meeting some Alberta oil will "undoubtedly" find markets in the U.S. Natural gas from there will also find its way to the U.S. as will iron ore, Sawyer predicted.

CHARLES SAWYER
... Oil for U.S.

Latin America

President Peron of the Argentine has decided to do a spot of currency evaluation all his own. Congress will have to take country off gold standard and subordinate national wealth for gold with which to back the peso.

Invention

World-famed makeup expert Max Factor certainly isn't dumb. He's designed a special wig for hearing aids. A deaf person can wear it and nobody will know he has an ear trumpet.

Inflation Threat To Pound Slash

Benefits Of Move May Be Wiped Out Unless Guarded

LLANDUDNO, Wales, Sept. 24.—(CP)—Prime Minister Attlee today told Britain that inflation threatens to wipe out the benefits of cheapening the pound.

"There is no occasion for general price increases," he said. "It is the duty of every good citizen to co-operate with the government in preventing inflation."

In a speech prepared for a Labor party rally here, the Prime Minister said his government is determined to hold down prices, wages and profits.

SURVIVAL ENDANGERED

To let them get out of line would jeopardize the "economic survival of the nation," he said. "Such rises would do nothing to increase the sum total of the goods in which incomes have a claim. It would only alter its distribution."

"Some would gain at the expense of others, but the general effect would be inflationary and, by raising the cost of production, it would make it harder for us to sell our goods abroad," he said. "It would, therefore, defeat the whole object which we have in view."

The Prime Minister said devaluation is going to get an out of all difficulties.

"It is just one of the things which have to be done."

ROUGE BACKDROP—A back ground of industrial and political uncertainty clouded up by the Sunday's decision to devalue the pound from \$4.8 to \$4.25 in U.S. dollars.

Parliament has been called for Thursday evening as a debate on the implications of the devaluation. The government has decided to avoid a vote of confidence. There was more speculation today that the government may call an election well before next July, when its term expires.

All Attlee had to say on the subject was that an election will be held "in the course of the next nine months."

Attlee said he believed that, as a result of the Anglo-American Canadian financial talks in Washington, action will be taken on both sides of the Atlantic "which will pave the way to a freer flow of trade."

POSSIBLE TASK

"The task is not easy, but given the will and the time, it can be accomplished."

The Prime Minister added: "It is vital that all those engaged in industry should realize that nothing can be allowed to stand in the way of getting the highest efficiency."

Old-fashioned methods of working customs must be swept away where they hinder. Workers and management are not just juggling for their own living but for the economic survival of the country."

Murder Charged In Plane Deaths

(Continued from Page 1)

was said to have delivered at the airport was a cardboard cart, said to have been heavy for its bulk. One report said it weighed 25 pounds.

She was reported to have carried it gingerly en route to the airport. To have asked her taxi-driver to drive carefully and not to speed. Police said she believed the package contained "a statue."

The Royal Canadian Mounted Police announced: "We have definite proof that persons were placed aboard the plane to get rid of a woman and we believe we can prove who did it."

Soon after the crash a coroner's probe into the deaths aboard the Canadian Pacific Airways plane revealed the crash was preceded by an explosion. The sabotage probe followed.

Mounted Police said they had signed statements to back their claim, indicating they were statements from persons who had heard Mrs. Pire speak of her part in the disaster before she took an overdose of sleeping tablets and was taken to hospital in serious condition.

Pulse, making known they were on the trail of the woman, later said at that time they were guarding her against the possibility anyone might try to kill her for her part in the crash.

They added she took the sleeping tablets at the suggestion of a man "whose wife was killed in the crash" and who told her the police were out to trap her. He suggested she do away with herself.

Mrs. Pire's detention in her fourth-floor apartment at No. 400, St. Lawrence street in downtown Quebec followed by a few hours her release from hospital, still under police surveillance. She remained overnight under police guard in her home where she met police early in the evening and in red handcuffs.

A United States official hinted that Truman knew about it for several days at least.

Also from Rome, Pietro Nenni, pro-Communist leader of the Italian Socialist Party, said the bomb was touched off in eastern Siberia. Nenni was just back from a trip to Moscow.

Foreign Minister Vukobratovich addressed the United Nations Assembly in New York following Truman's announcement and never once mentioned the bomb. He called for peace among the big five powers—a proposal western diplomats viewed skeptically, coming from Russia.

THREAT TO PEACE?
Gen. Omar N. Bradley, chairman of the United States child-staff, went yesterday afternoon playing golf. The country's top military man added:

"The calmer the American people take this matter the better. We have anticipated it for four years and it calls for no change in our basic defense plan."

China has coal beds estimated to cover 50,000 square miles. The Dead Sea is 1,286 feet below sea level.

ELEMENT of danger in wily ways of women is shown as Alexis Smith eyes Joel McCrea. Both are top billing in South of St. Louis which starts at Empress theatre Monday. Companion feature is Ho micide.

Civil War Is Background Of Feature at Empress

South of St. Louis, an action-packed, historical yarn starring Joel McCrea and Alexis Smith, starts at the Empress Theatre Monday.

Filmed in technicolor, the picture is a United States Pictures production released by Warner Bros.

South of St. Louis was the no-mans land of the Civil War. It was that vast area of Texas and the southwest where the war was fought largely on a guerrilla basis. The picture is a fast, personal drama of three hard-riding men of the range. Its action is set against the violent background of the open spaces, where rampant smuggling and the reckless tempo of the time made life exciting and dangerous.

Inside Hollywood

By Howard C. Heyn (For Bob Thomas)

HOLLYWOOD.—(AP)—Alice Faye, as fetchingly blonde as ever and as slim as a model, says Phil Harris will be the movie star in their family from now on.

"I'm happy to be doing just exactly what I've been doing for four years," she said at the Fibber McGee and Molly cocktail party the other night. What she's been doing since the fall of 1945, when she completed "Fallen Angel," is being Mrs. Harris, housewife and mother.

And, when the Faye-Harris radio season starts in the near future, she says that Mrs. Harris on the air also.

Her identification on the radio show "Miss Faye appears through the courtesy of Twentieth Century-Fox, etc."—give just the impression she wants that she still is a star on the T.C.F. radio. Technically she is, but actually she isn't. I owe the studio one picture, but I'm never going to make it—or, I think now, any other picture," she said. "Harris is going to be the family star. He has just finished 'Wahash Avenue,' and he's wonderful. No, I haven't seen it, but I know he's wonderful. It is color and, boy, does that wavy hair look good in color!"

WESTERN BULLS

Western movies take a lot of liberties with their props, says Frank Gruber, who bats out mystery and western fights when he isn't busy building screenplays like "The Caribon Trail." Gruber's hobby is the history of western United States, and he cites these as some of the most common errors in cinema horse operas.

Metal cartridges for revolvers in stories of the 1860s or earlier the 1870s, says Gruber. In Civil War

6 EDMONTON BULLETIN, Saturday, Sept. 24, 1949

Central Gov't Building Mooted At Drumheller

DRUMHELLER, Sept. 24—Provincial government, according to wires read to the city council here by Mayor L. A. Bennett, is interested in acquiring two lots opposite the city hall as a possible home for a central government building here.

Hospital Aid Members Elect Mrs. Ida Dundas

WAINWRIGHT, Sept. 24—Annual meeting of the Hospital Auxiliary was held at the hospital recently at which election of officers was held. Mrs. Ida Dundas was elected president; Mrs. J. G. McDermans, vice-president; Mrs. K. Tryon, secretary; Mrs. E. Bradley, treasurer.

Executive consists of Mrs. H. Tesler, Mrs. R. Mulroy, Mrs. E. E. Wicher. Secretary's annual report showed a very profitable year. Among many notable things accomplished by this organization in the year was the purchase of a Bano-Metachrome machine, and also a small refrigerator, and the use of the money. In addition the every day mending and sewing were carried on constantly.

Farmer Gets New Deal on Science

By Ken Liddell
Provincial News Editor

LETHBRIDGE, Sept. 24—At long last a government going to do something about getting the know-how of scientific farming practices to the farmer in a language the farmer can understand.

For years there has been argument that a great part of money spent on agricultural research and extension work was lost because it was broadcast in printed form to the farmer to sleep as he read it. The answer, then, is to keep the farmer on the farm and the science in the laboratory, but between the two is to have somebody with his feet on the ground who knows how to help others apply scientific knowledge to actual practice.

In talking over this official at the scientific service centre in Lethbridge, said tribute to the district agricultural service of the Alberta government.

He said the district agriculturalist had sufficient university training to understand what it was all about, and were on equal ground with the farmer.

Then, as if to take the words out of the man's mouth, Hon. David U. Minister of agriculture, speaking at opening of the centre Thursday, said the Alberta government would have a liaison man at the centre on full-time duty.

He introduced the man as Thomas Kilduff with the department field-crops worker and later as district agriculturalist at Thursday, said the Alberta government would have a liaison man at the centre on full-time duty.

He introduced the man as Thomas Kilduff with the department field-crops worker and later as district agriculturalist at Thursday, said the Alberta government would have a liaison man at the centre on full-time duty.

THIS HUSKY, well developed turkey tom, over 20 pounds, is one of a flock of 6,000 now undergoing fattening at the Ben Brown farm, Acme, for the Thanksgiving market. The flock, one of the largest on the North American Continent, started some 12 years ago from a mere dozen birds. Two thousand hens, for the next spring's breeding season, plus three to four thousand for Christmas, New Years and Thanksgiving market, is the objective of the farm.

St. Paul Divn. Starts Guidance of Students

ELK POINT, Sept. 24—In a series of teachers' institutes held in the St. Paul School Division during the past two weeks under the direction of Mr. R. Racette, inspector of schools, plans were made for the instruction in guidance of students during the 1949-1950 school year.

Nearly 300 attendance of teachers was reported, with a total of 107 teachers attending the following institutes: Hainsburg, 10 teachers; Elk Point, 18 teachers; St. Paul, 43 teachers; Belleville, 18 teachers; Ashmont, 18 teachers.

Mr. Racette, in addressing the teachers, urged them to get to know and understand their children in order that they might adapt proper methods of instruction to them. He saw the need of realizing the special difficulties each student is faced with, and that each teacher must help their students to succeed.

Lacombe Studies City Advantages

Committee Will Report on Change from Town Status

LACOMBE, Sept. 24—A feasibility of changing to city status was discussed at the monthly meeting of Lacombe Board of Trade and Agriculture. Committee was set up to investigate and report at the next meeting.

Efforts to obtain a satisfactory municipality had not been too successful, partly because the town status limited powers of the council to grant certain concessions.

Very prominent on a long agenda was discussion regarding efforts to secure its veteran houses through the Central Mortgage and Housing.

Chairman Frank Adamson reported that all requirements had been met, but that due to the fact that the application was 15 days late in being sent in, no action could be forthcoming until 1950. Several real estate agents present expressed the opinion 25 houses would only slightly relieve the acute situation.

CARNIVAL WEEK Board will prepare placards and banners for carnival week in conjunction with the Lions three day convention and business men will be canvassed to co-operate with the scheme of making this Lacombe's first carnival week.

Progress has been made on plans for extensive tree planting and other approaches. Evening street lighting has become a reality. The clean-up campaign was declared a real success as was the town broadcast over station CBX.

Blood Donor Clinic WAINWRIGHT, Sept. 24—Local branch of the Red Cross has been advised that a blood donor clinic will be held in Wainwright, October 24.

Rimby Highway To Be Gravelled

RIMBY, Sept. 24—Grade 14 is being built from the R. Dolman corner to the Lockhart school preparatory to being gravelled.

When finished it will connect with the Rocky Mountain House to Red Deer highway, giving Rimby three gravelled routes—north to Ponoka, east to Lacombe and the one under construction.

Tag Day Helps Children's Fund WHITEHORSE, Sept. 24—Recent tag day for the United Nations International Emergency Fund for children was a great success. Sponsored by the Canadian Legion, the school children acted as taggers.

In the evening a dance was sponsored by Boys Town, the proceeds of which brought the total up to almost \$87.

</

First Floor Plan

THE "YORKHAVEN"—This is an interesting adaptation of Colonial architecture to a wide front bungalow. The plan arrangement affords excellent rooms with good circulation and well placed windows. A feature of the living room is a window garden with removable glass shelves and overhead concealed lighting. This will make for a colorful, cheerful and unusual center of interest. Note that the hall arrangement permits traffic direct to the kitchen. By using the graphic scale it is possible to measure walls for furniture placement. A stair to attic permits further expansion. Indicated materials are brick with wide siding in the gables. This is another in the Bulletin's popular home designs by Harold C. Beckett, M.R.A.I.C., Windsor, Ontario.

Alta. Champs 12 Years Old

DRUMHELLER, Sept. 24.—Master Ian Borwick, 12, who was awarded the provincial trophy for the best Junior Wheat Club pilot in the province, is a member of the Orkney club. He is in his second year as a competitive member. Calvin McGlave and Andy Sutherland are leaders of the club.

In 1946 the club won the Victoria Shield as district champions with a score of 449 out of 506. Ian scored a second at the Toronto Royal with his grass in his first year.

Markings for the district in 1948 and standings in the province, according to figures released from the office of N. F. Bell, District Agricultural Officer.

Orkney 449 first; Trochu 446.2, second; Level Land 443.2, third; Aime 434.3, fifth; Drumhellier 432, eighth; Reisker 412, tenth; Carbon 386, twelfth.

Early Hanna Settler Dies

HANNA, Sept. 24.—Mrs. Ellen Jackson, 72, of Byemore, passed away recently in Edmonton where she has been residing for the past year. The late Mrs. Jackson was born in Beaconsfield, England and came to Hamilton, Ontario, in 1912.

A year later she came to the Byemore district. Her husband, John Frederick Jackson, predeceased her in 1910. She is survived by one son, Oshert, of Byemore, and one brother, George Schofield, of Endang. Funeral services were conducted at Byemore by Rev. R. N. Wright, of Hanna.

CONCRETE MASONRY
Fire Prevention is Better than Fire Insurance!
—and cheaper in the long run
One of the greatest advantages of Vinyper concrete masonry is the safety. Forms are usually far from fireproofing equipment. When fire gets started in a built building, firemen are liable to be burnt, water is wasted, and repairs are practically impossible. Fire safe and built with Vinyper Concrete Masonry. Your building is really safe and built with Vinyper Concrete Masonry. FREE Write or call for your copy of this complete story of Concrete Masonry Construction

Army Recruiting Seeks Reservists

Units Still Little More Than Half Authorized Strength

By Douglas How
OTTAWA, Sept. 23.—(CP)—Canada is heading into a new recruiting season for the forces and, officials say, the emphasis of the publicity campaign will be placed on the reserve army.

The reserve forces generally are one of the big headaches of the defence department. They have added 5,000 men to their strength in the last year but, at 45,000, still are only a little more than half the strength of 80,000 authorized. Minister Claxton has indicated the government would like them to have.

The recruiting drive will aim at enlisting another 7,000 men in the next year.

BELOW STRENGTH
The reserve army's units are generally below strength and informed sources say their condition ranges from "fair to awful" in the next year.

The air force is reorganizing its reserves. The 10 auxiliary squadrons, supposed to be in the regular units, are manned by war veterans, are below strength and lack adequate ground crew.

The navy's reserves also are below target totals but are about as numerous—4,200—as the regular navy is capable of administering and training. They are still recruiting.

It was the reserves which provided the framework around which

GOOD REASON FOR SQUEAK

WILSON CREEK, Wash.—(UP)—Three Wilson Creek women could not understand the strange squeak coming from their motor car as they were out driving. They finally stopped to investigate and, lifting the hood of the car, they found a cat clinging to the top of the storage battery, more dead than alive. They lifted the grubby feline to the ground.

The soldiers get both summer and winter training and, as with the other forces, are administered and trained by regulars.

The problem of getting and keeping part-time soldiers trained makes some people in the RCAF doubt that Canada will be able to rely heavily on air reserves for immediate action in emergency. As a step, selected members of the auxiliary squadrons are being given a year's full-time flying training and then will continue on a part-time basis. A similar plan for ground crew is being explored.

TEN SQUADRONS
The RCAF has 10 auxiliary squadrons from Montreal to Vancouver, flying Vampires, Mitchells, and Harvards. Non-flying reserves are being reorganized, too.

The navy has 20 training divisions in cities from coast to coast and, officials, say some 50 per cent go to sea with the regular navy in the summer. Headquarters has been working on a scheme

that train two nights a week and spend a week or 10 days at summer camp despite conditions which are somewhat better and more realistic than before the war.

30,000 STRONG
The reserve army now is 30,000 strong compared to 50,000 in 1939. Units have been changed, training roles and, on paper, are formed into six divisions plus a number of independent brigades.

So far as "space" will permit, there appears to be adequate equipment and ammunition. New armories are scheduled for a number of cities, but construction is tied in with broad government policy for unemployment.

To provide equipment and instruction, less training for summer and provisions for a lot more advanced training, a nucleus of training schools in the winter. This would leave in emergency.

Local Hospitals Need Blood Donors Through the Canadian Red Cross!

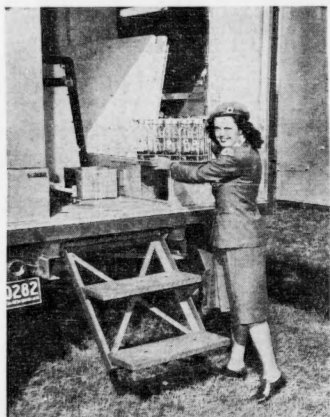

Determining a person's blood group is only a small part of the work involved in choosing compatible blood for a transfusion. When a patient in hospital is in need of transfusion therapy a specimen of blood is sent to the Canadian Red Cross Blood Transfusion Service laboratories where the specimen is cross-matched with blood of a similar group until a compatible match is discovered.

A voluntary donor gives a donation of blood to the Canadian Red Cross with a smile! He receives one in turn from a member of the Blood Transfusion Service. All blood collected by the Canadian Red Cross Society is distributed entirely free of charge to any hospital patient requiring a blood transfusion. This life-saving service is entirely dependent upon the support of voluntary blood donors.

Grouped and tested, this bottle of whole blood displayed by a member of the Canadian Red Cross Society's Blood Transfusion Service, is ready to be sent to some hospital patient in need of a transfusion. Attached to each bottle is a card explaining to the person receiving the blood that it is the gift of a voluntary donor. In co-operation with the Red Cross, hospitals administer the transfusions entirely free of charge.

In Alberta 700 voluntary blood donors are needed each week by the Canadian Red Cross Society to supply the requirements of hospital patients in need of blood transfusions. To meet this demand the Canadian Red Cross is dependent upon the support of voluntary blood donors everywhere. Mobile teams travel throughout the province conducting blood donor clinics in the cities and towns. A transport driver is seen unloading the large equipment van used to carry all necessary medical supplies.

YOUR blood is needed by local hospitals THROUGH YOUR DONATION to the CANADIAN RED CROSS. The Red Cross is the ONLY source of supply for all whole blood and plasma used in 123 hospitals.

These hospitals NO LONGER MAINTAIN BLOOD BANKS of their own... but call on the RED CROSS to meet ALL transfusion requirements. By donating NOW... you will probably save the life of a friend or relative LATER.

The Canadian Red Cross Blood Transfusion Service OPERATES 24 HOURS A DAY maintaining a constant supply of blood and plasma to meet the needs of an emergency. Patients receive this service entirely free of charge.

A laboratory technician of the Canadian Red Cross Blood Transfusion Service in Edmonton is seen with her work piled high as she prepares to check each bottle of blood collected at a recent clinic, before placing it in the blood bank. The Canadian Red Cross Society's free Blood Transfusion Service, now operating in Alberta and other provinces, makes Canada the only country in the world that has such a service available to hospital patients.

No finer opportunity of real community service is offered as that of being a blood donor. If you are not already an active blood donor you are urged on behalf of a fellow citizen whose life may depend on your donation to register next week.

Atlantic Pact Endorsed By TLC

Reds Fail To Battle Move; Long Resolution List OK'd

CALGARY, Sept. 24.—(CP)—With no opposition from its Communist fringe, the Trades and Labor Congress of Canada last yesterday gave unconditional endorsement to the North Atlantic Pact.

Winding up its annual convention, the Congress declared in a resolution that the pact was being opposed "in the most vicious manner by Communist parties."

The declaration failed to get a vote out of the Red segment of the TLC, in striking contrast to last year's convention at Victoria where Communists fought hard to get resolutions going against their line.

QUICK ACTION

Stale resolutions among scores passed today in rapid-fire fashion included:

1. A call for passage of fair employment practices legislation, including laws that would bar racial discrimination in employment and against property-holders on racial or other grounds.
2. There should be amendments to the British North America Act to enable passage of uniform legislation on social and labor matters.
3. Income tax exemptions should be increased for both men and women.
4. The voting franchise should be extended to persons at the age of 18.

URGE SUBSIDIES

5. Subsidies on basic commodities should be restored, the excess profits tax should be reimposed at the minimum level of 100 per cent. Prices should be rolled back to the 1940 level, and the price board should be set up on a full-scale basis.
6. The proposed health insurance program should be set up on the basis that the government would subsidize it but that the business community should contribute. The other social security measures.

proposed today were in line with declarations of previous congresses.

7. The federal government should direct a comprehensive national housing program.

8. Communism and fascism should be barred from entry into Canada. On immigration also, the convention declared this should be placed under the administration of the department of labor.

9. The eligible age for old age

pensions should be reduced to 65 for men and 60 for women, and the amount paid pensioners should be boosted to \$60 a month.

10. The Trades and Labor Congress should continue its policy of non-partisanship in political matters. In this connection, the committee rejected a second resolution which would have had the TLC set up a political action committee.

11. Labor should have equal representation with government and management on all national, provincial and municipal boards.

12. Operations of the Canadian Broadcasting Corporation and the National Film Board should be promoted and extended.

13. A bill of rights should be enacted to protect and guarantee the fundamental rights and freedoms of all Canadians.

14. The Trans-Canada Highway should be completed, and there should be an immediate start on proposed irrigation projects.

ACTION ON PROJECTS

15. There should be early action also, on the St. Lawrence waterway, the Chignecto canal across the isthmus of Chignecto between Nova

NOURISHING BEER WANTED

EDMONTON, Alta., Sept. 21.—(CP)—They finally got it. The man who was a hero in his beer.

Hartley Helms, Jr., 35-year-old Negro, was held on a burglary charge involving a local case. According to police, a case of beer and several cases of eggs were among the items stolen.

Hearts and New Brunswick, and the Passamunquid project for getting electric power by harnessing the Atlantic tides at the New Brunswick junction.

16. Hospital sweepstakes should be organized in Canada.

17. The federal labor code's application should be widened to take in all employees of federal, provincial and municipal governments.

As in earlier conventions, the Congress held in abeyance a proposed motion for "unity" with other labor bodies, specifically the Canadian Congress of Labor, its major rival in the Canadian field.

EDMONTON BULLETIN, Saturday, Sept. 24, 1940 11

Police Get Raise

EDMONTON, Ont., Sept. 24.—(CP)—Recommendation of a \$2 weekly pay raise for Hamilton policemen, was passed last night by the board of Police Commissioners. The raise, required by the Hamilton Police Association to bring police salaries in line with those paid other city employees, will mean weekly pay of \$38 a week for first class constable.

Paul Arthur, Ont., was formerly called Prince Arthur's Landing.

HEN PROVES OBLIGING

SALT LAKE, Utah, Sept. 24.—(UP)—Mrs. George Houston has a helpful hen. When a customer came to buy two dozen eggs, Mrs. Houston found that she lacked one egg to make the sale. At that moment, the hen waddled up, set down in the grass in front of her—and laid the 24th egg.

Boy Illustrates Proverb's Reverse

At the risk of barking up the wrong tree, I'd like to put a little reverse English on an old saying and get it into the record that Man is Dog's best friend.

And if you'll have around for a few paragraphs, I think I can prove my point.

Some weeks back the Associated Press reported the rescue of two boys and a dog who had been waylaid in the Apolache Mountains of Virginia. The AP, however, omitted both telling how the two boys happened to get lost and what happened when they did.

As I put it over the long distance phone, Blackie Carothers, 12, of Mount Lennie, Va., and a happy-go-lucky named Brownie set out one morning on a mountain-climbing expedition. The boys carried ropes, metal-siged staves and cut-down poles—standard Alpine equipment familiar to all news-writers.

After uphilling and downhilling the all morning, the kids took a short cut to munch their cucumber sandwiches and open a can of dog food for Brownie. Then they got lost again and, a few hours later, as dark began, throwing the wolf-published shadow, they sheltered their fire objects—getting lost.

FAIL TO BOTTOM

The terrain at this point was pretty tricky and as the explorers were making their way down the almost perpendicular walls of a ravine, one of them stepped on a loose stone. The stone gave way and, before you could bark "Davy Crockett!" the kids were tumbling from up to down in a cascade of rock and loose dirt.

This story, of course, figures to look which usually protects adventurous spirits and individual bodies, the mountain climbers wound up at the bottom of the gully with only a few scratches and bruises.

However, there was neither hide nor hair nor help of Brownie anywhere in evidence, and finally the boys began to dig for him in the rubble.

The boys allowed this to go on for several minutes, watching curiously, and then, tiring of the game, he began to bark.

The boys, of course, could have left Brownie on the ledge and tried to find their way home, but such a thought never occurred to them after a control of what they were doing settled down to wait out the night, huddling near the cliff and yelling encouragement to the pooch from time to time.

DOG REACHES GROUND

Meanwhile, searching parties were keeping the woods alive with shouts and torches, and when morning came helicopters and the National Guard joined the hunt.

Later that afternoon, an aviator spotted the trio, signalled the location to the ground rescuers and a few minutes later the relieved parents were embracing their boys and holding their cuts.

The dog was brought to the ground by means of a net on long ropes. Next day, after Blackie had slept and a half around the clock, he told his father what had happened.

"We were afraid we might not be able to find Brownie's ledge again, and even if we could, we knew we would need help to get him down, and we weren't sure enough people would go up into the hills for just a dog. We figured that if we waited a searching party would come looking for us and Brownie would be rescued, too."

"You ought to know we'd never leave Brownie," said Blackie's mother.

The kid grinned "Daddy" he said, "we didn't want Brownie to think we'd come off and deserted him."

With which the prosecution rests its case. I'm not doubting with the facts about dog being man's best friend, but I submit that the above incident indicates that the law-abiding has no better friend than his barked puppy, particularly if the latter is 15 or under.

Rolfe Says Page Yanks' 'Big Gun'

By Oscar Finley

NEW YORK, Sept. 24.—(CP)—Red Rolfe, manager of the Detroit Tigers, gives relief pitcher Joe Page full credit for the pennant drive of the New York Yankees.

"If we had Page we could have won the pennant," insisted the former Yankee infielder. "We have the pitching, but we haven't got the relief pitching."

Joe McCarthy of the Boston Red Sox certainly must feel the same way. If Marso Jos had a relief pitcher of the Page caliber the Sox would have had the flag of the season. McCarthy seemed elated by now . . . and do you when his 29th (Sunday) September they'll blow two playoffs club went out of business.

in a row?

Carl Sawley, coach of the highly-regarded North Carolina football team, wins the first, studded crying town of the infant football season. Sawley "only" has Choo-Choo Charlie Justice, one of the nation's best ends in Art Weiner, and a flock of other high-powered operatives.

But we do not have the experience or depth of the past few seasons. Sawley mused. "We want to show up for the game with North Carolina State, however."

P.S.—Sawley's "joke" (1) lads are 10-1-1 point favorites.

Happy birthday, Tommie Armour, golfs "Silver Seal" (54) and Dixie "People's Choice" Walker (60). Sunday, Dixie "Silver Seal" (61), and Wednesday, Ellis White (58).

Stor Dams has a new "iron man" in Georgian "Jungle Jim" Martin. Stor Dams, who will have started more games than any other player in the illustrious fighting Irish gridiron history. Over the past three years, Stor Dams has played 28 games.

Stor Dams has started in 24 of them. This Martin is quite a guy. He made a reconnaissance landing on Tylan for the Marines the night before the initial assault. He also is university heavyweight champion.

Conservation Corner: The greater kookaburra carries the longest horns of any of the American kangaroos. (But you should use the "horn" Evil Eye Moskoff of Brooklyn has on those Cardinals.)

P.S.—The California Condor has an 11-foot wingspread, weighs 25 pounds and is the largest bird of prey in the United States.

Middleweight champion Jack LaMotta is a 5 to 1 favorite over Marcel Cerdan for their title fight in the Polo Grounds Wednesday night.

That means you take LaMotta you lay \$11 to win \$5. If you want

GRIPPING ball for his famous under pitch to 40-year-old American, says a 50-year-old American League pitcher, "An American used his wits—no good advantage, racking up 20 wins during regular season."

WHIZ-KID MATTHEWS RIDES FIVE WINNERS

VANCOUVER, Sept. 24.—(CP)—An unknown apprentice rider at the season's opening, 21-year-old Henry (Ruck) Matthews yesterday captured season's riding honors, hauling home five of his eight mounts.

Matthews has won 63 races and Bobby Summers, veteran Winnipeg rider, 54.

Nalod set a new track record for the two mile distance in the featured \$1,000 Optional claiming feature, taking in easy eight-length victory in 3:09.4.

With Teddy Johnson in the stirrups, favored Nalod returned \$4.25, \$2.45 and \$2.50.

Daily double, Hi Jolly to Sugar, paid \$21.10. Quinella, Hazelgreen and Island Warrior, paid \$13.50.

Daily double, Hi Jolly to Sugar, paid \$21.10. Quinella, Hazelgreen and Island Warrior, paid \$13.50.

With Evangelist WILLIAM G. WESTON
of Elizabeth, Pennsylvania, Veteran Christian Speaker and soul-winner, preaching in all three services
11:30 a.m.—Devotional Topic: "THE SHEPHERD AND HIS SHEEP."
3:00 p.m.—AFTERNOON EVANGELISTIC RALLY
Topic: "THE GREAT PHYSICIAN"
"GOD SO LOVED THE WORLD THAT HE GAVE HIS ONLY BEGOTTEN SON"
"How shall we not with Him also freely give up all things" (including healing for the body)?
Hear this outstanding message. Bring your friends. Prayer will be offered for the sick.
7:30 p.m.—"MY LIFE STORY," by Evangelist Weston. From Log Cabin to Pulpit, by way of the valley of the shadow of death.
SPECIAL SINGING AND MUSIC by the Tabernacle Choir
by Song Leader PAUL EDWARDS with his trumpet, and by MISS EDWARDS with her marimba and harmonium
Mrs. Edwards has brought to Edmonton her large King George marimba, the only one of its kind in Edmonton (as far as we know). He sure to hear it. In afternoon and evening a MARIMBA-TRUMPET DUO by Mrs. Edwards and Mr. Edwards. Saturday evening service (19:00) announced, withdrawn in favor of Youth for Christ.
Thousands who feel that God has been blessing. Surely have been saved. Sick bodies have been healed. Hearts have been blessed. Come early on Sunday to get a seat.

Edmonton Bulletin Ottawa Bureau

OTTAWA, Sept. 24.—Overlooked in the rapid developments in the exchange situation this week was the fact that what circumstances had forced on Britain and Canada was exactly what George Leves had pounded home in the House last session.

Three and four months later, the financial crisis, day after day, had hammered the necessity both of devaluation of the British pound and of strengthening the Canadian dollar and a similar move.

What had made one of the most important points in the exchange situation, day after day, had hammered the necessity both of devaluation of the British pound and of strengthening the Canadian dollar and a similar move.

Wide Reaction In Europe To Russ A-Bomb

By EDWARD CURTIS

LONDON, Sept. 24.—(CP)—Europe is taking the news of Russia's atomic bomb like a child takes a date of machine he knew he would have to swallow sooner or later.

Some governments took the news with a perceptible shudder, others with a shrug and a show of optimism.

Russia remained calm, confident of its position, and without any sense within her borders.

NOT UNEXPECTED The British government said it had expected other countries would eventually develop atomic energy.

It said it was not surprised that Russia had taken into account the fact that it was the only country in the world to have a large stockpile of atomic bombs.

The western press expressed surprise that the atomic bomb might have been used by Russia.

U.S. HOLDS LEAD The United States government said it was not surprised that Russia had taken into account the fact that it was the only country in the world to have a large stockpile of atomic bombs.

PROBE OF MONTREAL TAXI BUSINESS SET

MONTREAL, Sept. 24.—(CP)—Montreal's city fathers last night moved toward an investigation of the taxi business here with the aim of curbing the recent wave of cab robberies which culminated early Friday morning in the murder of driver Ovide Legault.

Legault was shot dead in his cab and police said they believed a thug posing as a fare had killed him.

A few hours later, the city's executive committee authorized a complete police report on each of Montreal's 3,500 cab drivers.

Council leader Pierre Duhamel also urged creation of a special commission to control taxi operations in Montreal and to provide greater protection both for drivers and for passengers.

The board heard TCA's request for a permit to fly that route, granted to Canada under terms of the bilateral pact. But it must not amount to a decision until action is taken on Colombia's motion for an order which would cancel the whole agreement on commercial grounds.

That means a hearing before a three-judge federal court, not expected to convene until at least Oct. 10.

Meanwhile, the Aeronautics Board has given a permit for the flight of the Colombia action. That too, will be heard by the three judges.

Colombia retaliated with a petition to quash the board's motion. This may be heard by a single judge and has been set for next week. No definite date has been set.

NO INCREASE IN FORD of Canada PRICES

Company to Absorb Increased Cost Due to Dollar Devaluation

Some parts and materials essential to each of Ford of Canada's cars and trucks are not available in Canada and must be imported from the United States — and paid for in American dollars.

The American dollars with which Ford of Canada purchases these imported parts and materials cost ten per cent more in terms of

Canadian dollars, and the Company's manufacturing cost has gone up in proportion.

However, no Canadian purchaser will be asked to pay any part of this increased cost.

Prices will remain the same on all models of Ford, Mercury, Monarch and Meteor Cars and Ford and Mercury Trucks.

By J. D.

Two great events occurred yesterday. We found out Russia has the atom bomb and my son Brian got lost for the first time in his eventful two and one-half years of life.

The atom story made headlines all over the world. So Brian's mysterious disappearance from the family table made the *Edmonton Bulletin* and *the Mirror* because the *Mirror* is a big paper and it is a big story but after all we're getting used to it. Planets, meteors, comets, asteroids and all that sort of thing.

The *Edmonton Bulletin* got a little boy lost last night in the city streets. I received him for supper. I thought it strange there was no one in the apartment and no supper on the table.

I sat down to read the paper and wait the return of the *Mirror* from her latest assignment with the *Edmonton Bulletin*.

I was just getting into the mood to give her a good piece of my mind for disappearing around when she burst into the room with a two-sided phlegm after half purple and half gasp of.

"Brian's lost!" She snatched into a chair and sobbed away while I tried to get an outline of the case.

"It's funny but the more you try to remember a woman in such a situation the harder she will be."

"At first I was frightened, thinking of all the things that can happen to a little three-year-old boy. Then I got mad and started to feel better right away."

I reacted to the brutal shock treatment and it worked, up to a point.

I found out (a) That Junior had been missing for about one hour. (b) That there was a woman in the case. (c) That a blonde named Lana from across the street was missing too.

When last seen they were playing happily in a small tree in Lana's back yard. (d) Nearly everybody on the street had looked in the search, including the city police.

Then I jumped into the big hunt. I was afraid I would start to cry too if I didn't do something.

MASSED CHOIRS from five of Edmonton's Roman Catholic churches will raise their voices in praise at Sunday evening service of Bulletin sponsored, Church-of-the-Apen-Air being conducted this week by members of Catholic faith.

Rev. Leo Green is directing choir. Service will begin at 9:15 p.m. at Starlite Theatre one and one-half miles south of Jasper avenue on 156 street.

PROMOTER of Rosary Crusade for family prayer, Rev. Patrick Peyton of Holywood, chats with local leaders of Catholic Youth Organization playing a prominent part in Sunday services of Bulletin sponsored Church-of-the-Apen-Air to be held at the Starlite Theatre. From left are John LaFortune, C.Y.O. diocesan president, Irene Morin, C.Y.O. city president and Father Peyton.

SOLOIST at Sunday service will be Mrs. Mar. A. Johnson of 10230-131 street.

ORGANIST for massed choir and soloist will be Mrs. Irene Morin, 10230-131 street.

Mountglen Group Meeting Monday

General meeting of the Mountglen Home and School Association will be held Monday in the Community Hall.

The meeting will get underway at 8 p.m. at which time a report of committee on boundaries will be given, followed by the nomination of a president.

Bridge Plan Is Feasible

Canadian Pacific Railway has told city commissioners it considers plans to convert the upper deck of High Level bridge to highway, car and truck use as structurally feasible.

This was announced today by City Commissioner D. H. Alexander, but he would give no opinion on when work might start or what the job will cost.

No word was obtained from the CPRT on when it is proposed to have work start, or when plans will be ready to be made.

Proposals originated by A. W. Haddon, city development engineer, and forming the basis of projected plans, envisage closing the present roadway to cars and trucks, erecting additional supports outward from the present sidewalks up and out to carry a 25-foot roadway on each side of the railroad tracks.

Strong outside forces would be built on each bridge, and because would also be erected between them and the railroad tracks.

To compensate for additional upper deck loads, the heavy concrete abutts on the present roadway would be lifted and repaired with lighter flooring. Pedestrians and bicycles only would then use the present roadway.

CANADIAN PLAYS are being directed by Miss Esther Nelson who is new drama director of the department of extension, University of Alberta. Former teacher at Banff School of Fine Arts and member of Everyman Theatre in Vancouver, she is one of the many new Varsity instructors this year.

NEW LIBRARIAN in the agriculture library at the University, Mrs. David MacDonald has made wide experience both in Canada and abroad. When new Rutherford Memorial Library, opens in the spring, she will be in charge of both ag and applied science books. She is a graduate of Universities of B.C. and Toronto.

250 Freshettes Expected to Enter University of Alberta Next Week

More than 250 freshettes are expected at the University of Alberta this year. When U of A opens the next 40 years.

These just a faculty that girls haven't entered and come through with flying colors. The engineers are an end of their "yellow" girl students, they have even elected two of them Engineers' Queens.

Women have graduated in dentistry, medicine and law. It's practically commonplace for a girl to take agriculture.

But men so far haven't treaded on sacred women's ground. Household economics is still strictly a woman's field.

Campus notes last year outnumbered the girls almost five to one. Unfortunately, indicates this year point to only a two to one ratio.

FEMALE LECTURERS

Along with new women students at Varsity will come new women lecturers and professors. Included among these are Miss Esther Nelson, appointed to the drama section of the department of extension; Mrs. David MacDonald, new agriculture librarian; Miss Iona Helen Stacey, physiology department; Miss Muriel Caldwell, education lecturer; Miss Joanne Smeltzer, bacteriology; Miss Elaine Fiddie, physical education.

Miss Nelson is no stranger to theatrical circles in the west. After normal school, she taught in Alberta, making the most of her summers to attend the Banff School of Fine Arts where she took "everything in theatre."

Scholarship winner to the Seattle Repertory Playhouse, she spent two years there, then came back to Canada to join Sidney Hix with his Everyman Theatre in Vancouver.

TAKE OVER JOB

She now has Mr. Hix's former job with the extension department. She travels to small Alberta towns, giving information and assistance with their theatrical productions and their community centres. "And we do stress the community centre idea," she says. Miss Nelson has a good word for the small towns who according to her, are doing ahead with their community work to such an extent that some cities could take notice.

Adjudicating drama festivals in district points also comes within Miss Nelson's line of duty.

She has been a long series of interesting jobs in Canada and overseas.

U.B.C. GRAD

Aria graduate from U of British Columbia, Mrs. MacDonald received her bachelor of library science from Toronto and worked at U of T. Library for some years before going overseas with Metropolitan Transport Corp. Later she switched to the Canadian Legion Educational Services, offering education extension to servicemen.

Her husband was in England at the time with the Canadian Legion. He is now an architect here.

The past one and half years, Mrs. MacDonald has been in Toronto re-evaluating the library for the Canadian Institute of International Affairs.

League Opens Fall Activities Saturday

Westmont Community League will begin activities Saturday at 8:30 p.m. with Members' Night.

Admission will be by membership card only.

Activities will be open to the public in October with novelty being played Tuesday nights.

Ladies' Aid in the League will meet in the hall Oct. 5 at 8:30 p.m.

CANOE TRIP down the Peace River was taken in stride by Caroline Himmann of Summit, New Jersey. Organized tour conductor, Miss Himmann was a visitor in Edmonton yesterday.

EDMONTON BULLETIN, Saturday, Sept. 24, 1940 19

Mary Bocock Becomes Bride of John Allam

In an early afternoon ceremony at Christ Church, Mary Bocock, daughter of Mr. and Mrs. Geoffrey Bocock, became the bride of John Allam, son of Mr. and Mrs. John Allam, of Edmonton.

Rev. E. C. Otter performed the ceremony before an altar heavily decorated with gladioli and carnations, tied with mauve and white bows.

Given in marriage by her father, the bride wore a white tulle gown, styled with flared train-length skirt. The fitted bodice was buttoned down the front, and fastened at the waist with a large and elegant brooch.

Face headpiece caught her short veil, and her bouquet was an all-white arrangement of gardenias, carnations and lily-of-the-valley.

Mrs. William Hatch and Miss Olive Wilkinson attended the bride, wearing green tulle, and Miss Joan Albright was in yellow tulle.

SIMILAR GOWNS

Their friends wore white silk with heria collars and sleeves. Skirts flattered to look fullness with making the line and balance, and carried down from the waist and fastened.

Best man was William Himmann, and the guests were ushered by Frank Harrison and Robert Marshall.

Wedding music was played by Miss Dorothy Teepe, and the soloist was Mrs. William Foster.

Pastel blue dress with burgundy accessories was chosen by Mrs. Bocock for her daughter's wedding. Cream roses complemented her carriage.

Mrs. Allam wore French blue with Rembrandt vene accessories, and a corsage of white roses and gladioli.

Crossed-themselves in autumn shades, decorated Kilmonger, the country house of the bride's parents for the reception following the ceremony.

Triple tier cake on an eucalyptus stand.

American Woman Takes Tourists Down Peace River

Ladies' Aid of the Peace River, organized by Caroline Himmann, has taken a tour of the Peace River.

An American from New Jersey, Miss Himmann, is the tour leader. She has been to the Peace River many times before.

She took seven people down the Peace River from Prince George on an 18-day trip. She says plans for the journey took her almost a year.

In summer, she brings her family to the Peace River.

During coffee was Mrs. Jack Himmann, Mrs. Charles J. Himmann, Mrs. George Hatch and Miss Joan Albright.

Heart roses and peach tapers in silver holders.

Following a honeymoon trip to the Western States, Mr. and Mrs. Allam will return to Edmonton.

For travelling, the bride wore a mauve and white dress, decorated with white roses and gladioli.

For travelling, the bride wore a mauve and white dress, decorated with white roses and gladioli.

For travelling, the bride wore a mauve and white dress, decorated with white roses and gladioli.

For travelling, the bride wore a mauve and white dress, decorated with white roses and gladioli.

ROUNABOUT

By Kit Andrew

Freshman antics will pepper hum-drum days next week when registration starts at the University of Alberta.

This year registration will be a small thing compared to the past five of years when veterans flocked to the campus to have another run at bookbarn.

Calder, another well-known and slim-stripped, will be caught boys with far more enthusiasm than the wily old professor will once again turn to an amphitheatre of boundless rather than an audience of grown men and women. Some will be indifferent to the change.

... others will be delighted to end ... Imagine Prof. Siller will welcome smaller classes as long as the

Intelligent question doesn't follow the downward trend.

Alumni enthusiasts look forward to next week when they can "regale" their family and friends with tales of their freshman days.

Know one family who have to go through every play of father's college football success.

Henri Kreisel, Edmonton's shining light of the literary world, is back after a leisurely summer spent in England with his family.

Author of last year's best seller "The Rich Man," velvet-eyed Henri Kreisel is hard at work now on his second book. He came to Edmonton one year ago to be a member of the university English department and overwhelmed local literary genius with his charm, talent and stirring "way with words."

Edmonton welcomes back Henri and his pretty wife Esther ... also welcomes another prose success such as "The Rich Man."

Even two restaurateurs clash when discussing the man-versus-women-best-cooks question. But it's generally agreed men have that certain something when it comes to steak-frying, pan-frying, french-fried potatoes, spicy stew.

Not a Sunday goes by in the Arthur Lilly household that father doesn't present the family with heaps of steaky, light pastures ... and with his own special recipe too.

Herb Hamly takes over as chief in charge of kitchen capers as the night moves him, his family, and especially, slim, laughing Mrs. Hamly, thinks it's a great idea.

George Cormie is another master of the household who twists a mean culinary wand. As a matter of fact, he's near-famous for his Turkish Delight candy.

Women of Today

COMMUNITY CHEST drive will start shortly in Edmonton. Hard at work with organization plans are from left, Mrs. Marshall Mallett, chairman of women's division; Mrs. F. R. Gaboury, vice-chairman.

GARDEN PARTY

tea will be held tomorrow from three until five at the home of Mrs. J. M. Whidden, 19 University Campus.

Social get-together has been arranged by the executive of the Edmonton branch of the Saskatchewan Alumni Association.

Invitation to attend is extended to all graduates of the University of Saskatchewan.

The Whidden home can be reached from the bus stop at the Arts building by walking East to Saskatchewan and following it to the University staff residences.

Social Whirl

FROM BLOXI, Gulf of Mexico, have come Capt. and Mrs. H. S. Davidson, Spence and Karen, Capt. Davidson will remain in Edmonton a few days, and then proceed to Moose Lake, Wash.

Mrs. Davidson, the former Lesley Moore, will remain with her children for a week or two, guests of Mr. and Mrs. Robert Blair and Mrs. M. L. Moir.

EN ROUTE to Vancouver, Mr. and Mrs. H. Michael Pearce are visiting for a few days with the latter's parents, Mr. and Mrs. Guy Patterson. They have spent the summer at the National Research Council project at Chalk River.

Mr. Pearce is returning to UBC to continue studies for a doctorate in physics.

Honoring her daughter, Mrs. Patterson entertained one evening

OVERSEAS missions secretary for the Presbyterian Church, Miss Laura Pettit is in Edmonton in the course of a western speaking tour.

Missionary Inspires WHS

Christianity is gaining ground in the Far East despite the frightful disturbed circumstances in which the church is working.

This is the opinion of Miss Laura Pettit, overseas missions secretary of the W.M.S. of the Presbyterian church in Canada. She returned last spring from a six month visit to mission stations in China, Japan, Formosa and India.

On a speaking tour of western universities, Miss Pettit is describing the work of the church as she sees it in the changing conditions of the east.

Leaders of the church are fundamentally interested in what people think, and in the betterment of economic conditions, she says. They are wondering if China, in the midst of ecclesiastical changes from centuries of tradition, will build her future on a secular philosophy.

"What the Church is doing in the East" was her topic last night at First Presbyterian Church.

WHAT THREE-YEAR-OLD wouldn't love this bow-in-back afternoon dress of white and blue and white pin stripes. Worn by Lee Sutton daughter of Mr. and Mrs. R. S. Sutton, it will be featured in fashion show sponsored by Edmonton House Chapter, IOGDS, at the Masonic Temple Wednesday.

SNUG AS A BUG in a rug, Lee Sheppard, daughter of Mr. and Mrs. H. L. Sheppard, models a cozy two-piece winter outfit in mulberry wool. Kid's clothes in the Toys to Tween fashion show, are from Jack and Jill store.

FITTED MODEL, coat in luscious taupe shade featuring a gathered belted back is worn by Mrs. Brian Dunsworth in the show Wednesday. Clothes for teens and twenties are from Fashion Drive Shoppe.

LUSTROUS SATIN in deep bronze copper shade is just right for after five affairs. Skirts are still wide and long for these occasions. Model is Audrey Clark who will also show other creations from the Fashion Drive Shoppe at the Edmonton House fashion show at the Masonic.

Little Chief Has Fun On A Visit To The Zoo

After waiting patiently for 25 minutes and hardly making a sound, the mascot finally entered the wonderful land of beautiful nature. When he got there, he found it was no special day and the boys were fascinated as the mascot walked around. There were ducks and geese and all kinds of birds in the water. They all agreed that the time the afternoon was over that they would rather have that kind of school work than any other. They have the best of both worlds because they have the mascot and the beautiful way of thinking. But some young boys, and girls, are not so patient. They are impatient because they had seen so many pictures of the mascot and they thought it would be so interesting to see it in person. Little Chief thinks that Saturday is a great day when he can play ball with his friends and not worry about school. This afternoon he and the mascot went to the zoo and saw the beautiful animals. They were having a football game of their own and tonight they are all coming over to Little Chief's house to listen to the game between Little Chief and the mascot at Calgary.

John Murray

Birthday Greetings

Today birthday greetings go to John Murray, 1125-110 Avenue G, who celebrated his 11th birthday. The manufacturer of poplin, a textile fabric of French origin brought to England by the Huguenots, has long been especially associated with Scotland.

UNCLE WIGGILY'S BEDTIME STORY

By HOWARD R. GARIS

my wife, Patsy, how you ride Buster and Bunty on your back. Uncle Wiggily and his friends, including Patsy the blue circus elephant, stopped talking and listened to the rustling in the bushes. "Aunt and baby, Capt. Wiggily said, 'I think I had better get ready my super duper pop gun that shoots hot baked beans and red tomato sauce.' Hunny looked at the rustling bushes. "See, my dear, there is no danger. Note at all. I believe you are right, my dear. Buster," answered Mrs. Longears. "I will be brave. I will ride on the elephant's head with you." "Bunty, let's start the grand parade every body up on Patsy's back— you too, Mrs. Longears," called the clown by the. "All right," replied the brave rabbit lady. "I'll ride up with your trunk, Patsy." "I don't believe this is Kenna's mode. Uncle Wiggily, it sounds more like— Just see Mrs. Longears, the rabbit lady wife of the bunny uncle jumped through the bushes. "Wiggy! Wiggy! You must never do it!" she exclaimed. "In what my dear?" "Slide on this blue elephant's head. He might shake you off." "Oh, no, rabbit lady, I would never do that," said Patsy. "What's all this about?" asked Mrs. Longears. "It's about a big, sensational grand parade— circus act," Bunty answered. "Don't spoil it, Auntie Longears, by stopping Uncle Wiggily from riding on Patsy's head." "It's not at all afraid, my dear," declared the bunny uncle. "This Oh, you should have heard the blue elephant's very kind. Show around just like."

Drew Asks Delay For Constitution

Six-Month Slowdown Asked For Abolition Of Appeals

OTTAWA, Sept. 24.—(CP)—Two lawyers and two laymen—the leaders of the four Commons political parties—tackled the intricacies of Canada's constitution yesterday and lined up three-to-one in favor of immediate abolition of appeals to the Privy Council.

The opposition came from George D. Yew, Progressive Conservative leader and former Toronto lawyer, who proposed that the Commons delay passage of the bill which will make Canada's Supreme Court group on the side of the government. He said he could see no reason why the step should not be taken within the next few months. Debate was postponed until next week.

Yesterday's 3½ hours of discussion on the bill came during second reading—adoption of the principle of the measure.

NIGHT SESSION

At a night session the Commons turned to agricultural estimates. Members listened in hushed expectancy as Prime Minister St. Laurent said the government concurred in the decision by the United Kingdom and the United States to make public the disclosure that Russia had exploded an atomic weapon.

Replying to Mr. Caldwell, Transport Minister Chervin said the federal government has no intention of interfering with the eight-per-cent freight rate increase awarded Canadian railways by the Board of Transport Commissioners.

At a Scandinavian mythology session the name of the first man created.

ALL EARS are two fems—sometimes called North African foxes—new arrivals at St. Louis Zoo. Kiddies find them amusing because of their long, donkey-like ears.

\$29 Million Aid Plan For Orient

SINGAPORE, Sept. 24.—(AP)—Duncan Campbell, a United States observer, told the International Labor Organization yesterday that the government would not revise the yen-dollar exchange rate unless "there is an unexpected change" in the economic situation in the future.

No Rate Change

TOKYO, Sept. 24.—(Reuters)—Hayato Ikeda, Japanese finance minister, reiterated yesterday that the government would not revise the yen-dollar exchange rate unless "there is an unexpected change" in the economic situation in the future.

Four Die In Smash-Up

HAWEY, Minn., Sept. 24.—(AP)—Three men and a woman were killed yesterday in the collision of an automobile and a semi-trailer truck at an intersection near the automobile.

Fitting Honor

PARIS, Sept. 24.—(Reuters)—Paul Derval, director of the Folies Bergere, was yesterday made a Chevalier of the Legion of Honor for "30 years of social service."

Bank Thief Describes Robbery at Bowden

CALGARY, Sept. 24.—(CP)—Allen Airey, 20-year-old convicted bank thief, yesterday told how he and Edward Onushko planned and carried out the robbery of the Bowden, Alta., Treasury Branch.

DEER CAUSE OF INJURY

SPOKANE, Wash., Sept. 24.—(UP)—Charles Clifford, 23, suffered serious injuries when his motorcycle collided with a deer on a road in northern Idaho.

Lowell Thomas Severely Hurt

NEW YORK, Sept. 24.—(AP)—Lowell Thomas, 57, author, news broadcaster and traveler, was severely injured when thrown from a horse in a steep mountain pass in the Himalayas, his office said yesterday. Thomas recently left Tibet with a message from the Dalai Lama to President Truman.

Couple Mark Anniversary

PRINCE RUPERT, B.C., Sept. 24.—(UPI)—A Prince Rupert couple quietly observed their 63rd anniversary of marriage yesterday. Mr. and Mrs. A. R. Holby were married in 1881. They came west in 1900 from Ottawa to settle in Prince Rupert.

St. Elizabeth was the mother of John the Baptist.

EDMONTON BULLETIN, Saturday, Sept. 24, 1949 37

Widow Of Former CMA Head Dies

CHARLOTTETOWN, Sept. 24.—(CP)—Mrs. Ellen Jenkins, 87, of St. John's, Nfld., died yesterday.

Quality Street
at EATON'S

Your guide to quality-tested,
value-proved merchandise that
bears the familiar labels of

**EATON'S
OWN BRANDS**

Eaton
GLENEATON
Eatonia
TECO
VIKING
ACME
Solar
BULLDOG

Here's your guidebook to shopping satisfaction!

It's the story of Eaton's Own Brands and it's a reliable reference to best-for-the-money quality in a wide variety of dependable merchandise! Whenever you shop, refer to these tried-and-trusty names — "Eaton," "Gleneaton," "Eatonia," "Teco" ... "Acme," "Bulldog," "Viking" and all the rest! Wherever they appear, they stand for best value at the price, offer the utmost in quality and performance

for every penny of your shopping dollar! They're bought by our most experienced buyers, checked for value, and subject to the scrutiny of our Research Bureau.

This week you are invited to see the story of "Quality Street" unfolded at Eaton's, with special displays of Eaton's Own Brands throughout the store. Buy them with confidence, this week and always!
